

RESEARCH ARTICLE: High-Fidelity Neural Document Parsing

Abstract: In this work we explore multi-column layout extraction.

Column 1: The model identifies spatial headers and paragraphs. Column 2: Spatial continuity is preserved across reading orders.

Column 1 Section B: Multi-modal OCR aligns coordinates accurately. Column 2 Section B: Column flow resumes after left column completion.

Sidebar: Key Takeaways - 100% geometry retention.

Footnote 1: Verified under USCIS 8 CFR evidentiary guidelines.
